

Have your
students lost
focus?

Our Audio Visual Solutions engage your students

We specialise in customised systems, starting at the most basic classroom installation (under \$4,000) all the way up to the connected and interactive classrooms and auditoriums.

At InSight Systems, our expertise, consultative approach and advice on technology mean we can ensure that the right solutions are implemented, on time and to budget.

We spend time with you and your teaching staff to make sure there is a thorough understanding of the technology and how to use it throughout the school.

5 Reasons to use InSight Systems

- Life-time guarantee on all installations
- 3 year **onsite** extended warranty on all installed products
- Onsite training for all systems installed
- Ongoing support and system maintenance
- Over 15 years experience working with schools

"I have been extremely impressed with their professionalism and expertise in providing us with the knowledge and service that we require in order to upgrade to the latest interactive technology in our classrooms."

Adam Broomfield, Assistant Principal,
Clayton South Primary School.
(03) 9558 0599

"In this fast paced technological world, it is crucial to find a company that empowers you and elicits a sense of strength when making decisions, leading colleagues and maximising professional knowledge. This is InSight Systems."

Monique Corcoran, Curriculum and Innovations
Coordinator,
Patterson Lakes Primary School.
