### **Testimonial**

We contracted Dr Audio to provide the cable infrastructure for a major Audio Visual project for our client, Swinburne University of Technology.

The Dr Audio team displayed a high level of technical expertise in advising and improving the system design. We were impressed with the level of detail in both the 'as built' documentation provided and the general approach to their work.

Dr Audio's standard of project management and professional communication throughout the project, both to the key staff at Swinburne and ourselves, was key to the smooth delivery of the project.

The result was a high quality integration and a successful project delivery.

A handwritten signature in black ink, appearing to read 'JD', with a small horizontal line to the right.
